

SmarterTrash®

A BWE Company

Smarter Trash Inc., a BWE Company in North Carolina is pleased to announce a versatile new Indoor / Outdoor receptacle that can be utilized for any stream including recyclables, compost, or general waste.

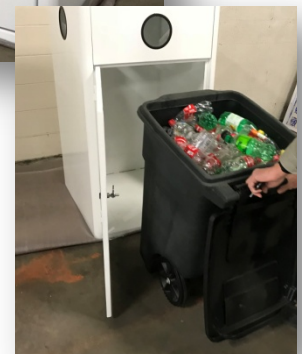

The strong and attractive steel enclosure has a durable protective enamel finish to provide many years of use.

Patrons can quickly deposit into any one of the three openings that lead directly into an integrated & wheeled 48 gallon cart.

Change out is efficient and ergonomic as the cart is high capacity, and can be rolled directly to your waste / recycling consolidation point. This heavy-duty plastic cart cleans easily, and can be used with or without a liner.

Other Features:

- Heavy gauge welded steel construction
- High quality enamel paint
- Covered top
- 3 Deposit openings; 1 on front and 1 on each side
- Deposit opening chutes help prevent spillover
- Rugged integrated wheeled cart with cover
- High capacity 48 gallon = 150+ cans & bottles
- Locking door for secure "Staff Only" access
- Liner bags are not required, but can be used
- 1 Signage Logo included (i.e. Recycle Logo)

Options include:

- Paint colors
- Custom graphic wraps and additional signage - Match venue aesthetics or get your message across!
- Anchor bolt to secure unit
- Integrated feet or caster wheels

Please contact us at getsmart@smartertrash.com for more information on this new receptacle that provides your venue with an attractive and efficient option for your waste and recycling needs at a value price.
